What defines the M Series?

- Mixing drums for all concrete types (dry, semi dry, wet batch, mortar and screed) to the same unrivalled quality
- Optimum body design for maximum payload
- Designed with modular and standardised subframe for increased flexibility, enhanced payload and customer/OEM individuality
- Full UK and Ireland back up service network
- Reactive parts network for same or next day dispatch
- DVSA recognition and accreditation (tailored packages available on request)
- Members of the BCTA (British Concrete Transport Association)

Washbox

- Stops spills on the road
- Allows mixer/chute wash-off onsite
- Designed & built as its own tank, holding up to 75L of waste water
- Gravity fed with no moving parts, so maintenance free (aside from cleaning)
- 24kg weight saving against alternative style washboxes

Popular Options

One Piece ladder

- No moving parts so guaranteed reliability
- Singular structure for increased strength
- Bolt on and bolt off options for replacement repair

TECHLA 60W LED Work Lamps

- Increase visibility around mixer
- Increased operator and stakeholder safety
